- Silver Filigree 925
- Gold Plated - Silver Filigree 925
- Combination Rodium & Gold Plated - Silver Filigree 925
- Silver Plated - Copper
- Gold Plated - Copper

*Filigree is the art of curling, twisting and plaiting the metal thread or soft wire, gold, silver, or copper, before it becomes an art object or jewelry. Sometimes it is made with tiny beads or twisted threads, or both in combination, soldered together to the surface of an object of the same metal and arranged in artistic motifs to create an object of art. This creation is done fully by hands and need some skillful hands, patience, time consuming, consistencies before it becomes an art object with high taste of Art.*
